

MS Excel (complete) (code: Excel-202)

compliant with: Learn Microsoft Excel 2010 Step by Step, Level 3
(compliant with MS 50546)

Overview

This course is designed to bring the students' skills in using MS Excel from basic to advanced level. The course provides students with both an overview of the advanced features and functions of the program and knowledge of their practical applications. Practical exercises accompany every topic covered during the course.

Microsoft Certificate: for an additional fee of **20 GBP** per person, we provide registration with Microsoft Authorized Training system. Training participant registered in this system receives a certificate recognized and respected anywhere in the world, and additional electronic training materials provided by Microsoft.

Genuine Microsoft certification not only confirms the holder's skills - it can also be a valuable part of a resume. **Important:** authorization is available for on-demand training courses only.
