

JavaScript and jQuery (basics) (code: JS-JQUERY-BASE)

Overview

The course provides students with techniques for adding attractive JavaScript effects to WWW pages. In contrast to the "AJAX for programmers" course, this course focuses on using ready-made solutions and libraries instead of creating new ones. For more detailed JavaScript language course and communication protocols see the "AJAX for programmers" course. This is 5th day of the 8-day course *Webmaster* (<http://www.alx.pl/en/webmaster/>). This course is also available for exclusive groups.
